**Notice of Final Nursing Facility Medicaid Rates for  
State Fiscal Year 2001 for the Nursing Facility Quality  
Enhancement Wage Pass-Through Program,  
Methodology for Calculating Final Rates, and  
Rate Justifications; Notice of Intent to  
Amend the Medicaid State Plan, and  
Response to Written Comments**

Under the Medicaid program, 42 U.S.C. 1396 *et seq.*, the State of Kansas pays nursing facilities, nursing facilities for mental health, and hospital-based long-term care units (hereafter collectively referred to as nursing facilities) a daily rate for care provided to residents who are eligible for Medicaid benefits. The Secretary of Aging administers the Medicaid nursing facility services payment program on behalf of the Secretary of Social and Rehabilitation Services. As required by 42 U.S.C. 1396a(a)(13), as amended by Section 4711 of the Balanced Budget Act of 1997, P.L. No. 105-33, 101 Stat. 251, 507-08 (August 5, 1997), the Secretary of Social and Rehabilitation Services (SRS) and the Secretary of Aging (KDOA) are publishing the final Medicaid per diem rates for Medicaid-certified nursing facilities for state fiscal year 2001, the methodology underlying the establishment of the final nursing facility rates, and the justifications for those final rates for the Nursing Facility Quality Enhancement Wage Pass-Through Program. SRS and KDOA also are providing notice of the state's intent to submit the proposed amendment to the Medicaid State Plan to the U. S. Department of Health and Human Services' Health Care Financing Administration (HCFA) on or before September 30, 2000.

**I. Methodology Used to Calculate Medicaid Per Diem Rates for the Continuation of the Nursing Facility Quality Enhancement Wage Pass-Through Program.**

The Kansas Legislature, during the 1999 session, adopted Senate Bill 126 (K.S.A. 1999 Supp. 39-971), an act to establish the Nursing Facility Quality Enhancement Wage Pass-Through Program. This program provided funding for nursing facilities to increase salaries or benefits for eligible positions providing direct care or support services to nursing facility residents. It also allowed fa-

cilities to hire additional staff in the eligible position categories. KDOA and SRS published the final methodology for calculating Medicaid per diem rates for the Nursing Facility Quality Enhancement Wage Pass-Through Program, pursuant to Senate Bill 126 (K.S.A. 1999 Supp. 39-971) and House Bill 2489 (1999 Session Laws of Kansas, Chapter 160), in the August 5, 1999 Kansas Register. Readers should refer back to that issue for a description of the methodology.

During the 2000 legislative session, the Kansas Legislature adopted Senate Bill 248 (2000 Session Laws of Kansas, Chapter 105) creating the Kansas Intergovernmental Transfer Program. Of the funds generated from this program, 9.7 percent are to be transferred to the state Medicaid match fund—Department on Aging. House Bill 2513 (2000 Session Laws of Kansas, Chapter 183) included an appropriation of \$1,660,795, state general funds for the Department on Aging from this fund for nursing facilities (NF) quality enhancement wage pass-through pursuant to Senate Bill 126 (K.S.A. 1999 Supp. 39-971). A similar appropriation of \$39,205 state general funds was made to the Department of Social and Rehabilitation Services for nursing facilities for mental health (NF-MH).

House Bill 2513 contains the restriction that no funds be expended except upon the approval of the State Finance Council after it has received certification from the director of the budget that sufficient moneys are available. Therefore, the implementation of the quality enhancement wage pass-through program is contingent upon funding being secured for the program. The wage pass-through will be implemented retroactive to July 1, 2000, if and when funding is secured. The following is an addition to that methodology to provide for the continuation of the wage pass-through for state fiscal year 2001, subject to the contingency noted above.

**Eligibility**

Only those NF and NF-MHs that were active in the wage pass-through program as of June 30, 2000, will be eligible to participate in the program during FY 2001. These active participants will not be required to file a new application for the program.

**Funding for Individual Facilities**

Per diem funding for individual facilities for FY 2001 will be determined by two components. The first of these components will begin phase-out of the facility-specific per diems that each participant received during FY 2000. The second component will be a prorated portion of any remaining pass-through funds.

The first component of the FY 2001 per diems will be based on the FY 2000 per diems and each facility's program effective date. It will be the amount of the facility's FY 2000 per diem that has not been built into its regular Medicaid rate or a prorated portion thereof if the program is not fully funded.

As an example, consider a facility that received a \$1.90 pass-through per diem during FY 2000 and that began the program on September 1, 1999. Of the \$1.90, \$0.63 would be built into the facility's regular Medicaid rate as of July 1, 2000. This amount is determined by multiplying the \$1.90 by the four months that the facility received the

(continued)

pass-through during calendar year 1999, and then dividing this product by the 12 months of the calendar year. In effect, this process averages out the pass-through per diem to a per resident day amount for calendar year 1999. Once this amount is determined, it is subtracted from the facility's FY 2000 pass-through per diem to arrive at its FY 2001 per diem. For the facility in this example, the FY 2001 per diem would be \$1.27 (\$1.90 - \$0.63). If full funding is not available, a prorated portion of this amount will be awarded.

The second component of the FY 2001 per diem will be determined by prorating any additional funds that remain after the first component has been determined for each participant. This prorated amount will be based upon each facility's FY 2000 per diem.

### Reporting and Documentation

Providers will continue to be required to submit cost information within 45 days after the end of each quarter to document the use of the wage pass-through moneys. This documentation will be the Quality Enhancement Wage Pass-Through Quarterly Audit Report. Supporting documentation such as payroll registers and state unemployment tax reports will be required upon the request of KDOA audit staff.

## II. Final Medicaid Per Diem Rates for Kansas Nursing Facilities.

The quality enhancement wage pass-through per-diem shall not exceed \$4 per Medicaid resident day. The per-diem increase for the participants will be added to the computed Medicaid rate in effect for the nursing facility but shall not exceed the comparable private pay rate.

## III. Justifications for the Final Rates.

1. The proposed rates are calculated according to methodology published in the August 5, 1999 Kansas Register and satisfy the requirements of Senate Bill 126 (K.S.A. 1999 Supp. 39-971), Senate Bill 248 and House Bill 2513.

2. Staff with the Kansas Departments on Aging and Social and Rehabilitation Services met with representatives from the Kansas Association of Homes and Services for the Aging, the Kansas Health Care Association, and the Kansas Hospital Association to determine the most equitable method of distributing the available funding for the quality enhancement wage pass-through program. The proposed methodology represents a consensus of the attendees at the meetings.

3. a. Estimated impact of the rate change due to the implementation of the quality enhancement wage pass-through program:

Estimated Average Rate July 1, 2000 with Pass-Through .....	\$91.43
Estimated Average Rate July 1, 2000 without Pass-Through .....	\$90.43
Amount of Change .....	\$1.00
Percent of Change .....	1.10

b. The above estimated average rates are in the aggregate. Not all nursing facilities will receive a rate change, and some may receive an increase greater than \$1.00.

4. Estimated annual aggregate expenditures in the Medicaid nursing facility services payment program will increase by approximately \$4,500,000.

5. The state estimates that the proposed rates would continue to make quality care and services available under the Medicaid State Plan at least to the extent that care and services are available to the general population. The state's studies indicate:

a. Service providers operating a total of 323 nursing facilities (representing 98 percent of all the licensed nursing facilities in Kansas) participate in the Medicaid program, while an additional 46 hospital-based long-term care units also are certified to participate in the Medicaid program;

b. There is at least one Medicaid-certified nursing facility or Medicaid-certified hospital-based long-term care unit in each of the 105 counties in Kansas;

c. The statewide average occupancy rate for nursing facilities participating in Medicaid is 87.2 percent;

d. The statewide average Medicaid occupancy rate for participating facilities is 54.8 percent, which is an increase from the prior year; and

e. The proposed rates would enhance the coverage that is already at 99.19 percent of the estimated Medicaid health care costs incurred by participating nursing facilities statewide.

6. Federal Medicaid regulations at 42 C.F.R. 447.272 impose an aggregate upper payment limit that states may pay for Medicaid nursing facility services. The state's analysis indicates that the proposed methodology would result in compliance with the federal regulation.

## IV. The State's Response to Written Comments of the Published Proposal.

The state received two written comments to the Notice of Proposed Nursing Facility Medicaid Rates for State Fiscal Year 2001 for the Nursing Facility Quality Enhancement Wage Pass-Through Program, Methodology for Calculating Proposed Rates, and Rate Justifications; Notice of Intent to Amend the Medicaid State Plan and Request for Comments published in the August 17, 2000 Kansas Register. These comments were carefully considered; however, no revisions were made to the final methodology. The secretaries wish to thank all those who submitted written comments and those representatives of the nursing facility industry who worked with the state to develop the Nursing Facility Quality Enhancement Wage Pass-Through Program.

## V. Notice of Intent to Amend the Medicaid State Plan.

The state intends to submit proposed Medicaid State Plan amendments to HCFA on or before September 30, 2000.

**Department of Health  
and Environment****Request for Comments**

The Kansas Department of Health and Environment is soliciting comments regarding a proposed air quality operating permit and amending previously-issued construction permits. Krause Plow Corporation has applied for a Class I operating permit in accordance with the provisions of K.A.R. 28-19-510 *et seq.* The purpose of a Class I permit is to identify the sources and types of regulated air pollutants emitted from the facility; the emission limitations, standards and requirements applicable to each source; and the monitoring, record keeping and reporting requirements applicable to each source as of the effective date of permit issuance. Notice also is given that certain requirements were found to no longer be appropriate in the construction permits dated June 25, 1997, February 12, 1998, and February 25, 1998. These requirements are being modified by an applicability determination.

Krause Plow Corporation owns and operates a gray iron foundry located at 305 S. Monroe, Hutchinson.

**Department of Health  
and Environment****Notice Concerning Variance Request from  
Hazardous Waste Regulations**

The Kansas Department of Health and Environment is providing public notice that on May 18, 2000, Dana Engine Controls, 1300 W. Oak St., Independence, submitted a request for a variance from specific hazardous waste regulations. The request for a variance was submitted in accordance with K.A.R. 28-31-13(a).

The variance is requested from K.A.R. 28-31-4(j)(1), which limits the accumulation of not more than 55 gallons of each type of hazardous waste in not more than one satellite container at or near each point of generation where waste initially accumulates, and which is under the control of the operator of the process generating the waste.

Dana Engine Control's variance request would allow the use of a one-cubic-yard container to collect sludge from the wastewater treatment of electroplating rinse waters. The use of this one-cubic-yard accumulation container would reduce the risk of accidental releases of hazardous waste and reduce the exposure of employees to hazardous waste.

KDHE has reviewed the variance request and concluded that the variance is justified. In accordance with K.A.R. 28-31-13(b), public notice was provided of the tentative decision to grant the variance. A public comment period to receive comments about this tentative decision was established between August 9 and September 8, 2000. No comments were received.

Therefore, in accordance with K.A.R. 28-31-13(b), KDHE announces its decision to approve this request for a variance with no special conditions. The variance will become effective September 28, 2000, and shall remain in effect until September 28, 2007.

## Board of Technical Professions

**Notice of Hearing on Proposed  
Administrative Regulations**

A public hearing will be conducted at 1:30 p.m. Friday, December 8, at the Shawnee Country Club, 913 S.E. 29th, Topeka, to consider the adoption of proposed rules and regulations of the State Board of Technical Professions.

This 60-day notice of public hearing shall constitute a public comment period for the purpose of receiving written public comments on the proposed regulations. All interested parties may submit written comments prior to the hearing to the Board of Technical Professions, Suite 507, Landon State Office Building, 900 S.W. Jackson, Topeka, 66612. All interested parties will be given a reasonable opportunity to present their views orally on the adoption of the proposed regulations during the hearing. In order to give all parties an opportunity to present their views, it may be necessary to request each participant to limit any oral presentation to five minutes.

Any individual with a disability may request accommodation in order to participate in the public hearing and may request the proposed regulations and economic impact statements in an accessible format. Requests for accommodation should be made at least 10 working days in advance of the hearing by contacting Betty Rose at (785) 296-3053.

Copies of the full text of the regulations and the economic impact statements may be obtained by contacting the Board of Technical Professions at the address and phone number given above. The following is a brief summary of the substance of the proposed regulations:

**K.A.R. 66-6-4. Rules of professional conduct.** A section of this regulation was deleted, as it was confusing and repetitive of K.A.R. 66-6-4(c) and (e).

**K.A.R. 66-10-1. Architectural experience of a character satisfactory to the board.** The document by reference in this regulation has been updated to the current version of the publication.

**K.A.R. 66-10-4. Landscape architecture work experience of a character satisfactory to the board.** This regulation is being modified to require an applicant who wishes to be licensed by reciprocity to get a record of experience from the Council of Landscape Architectural Board (CLARB). The CLARB administers a program that maintains and updates the experience record.

**K.A.R. 66-10-11. Surveying experience required of an applicant who is not a graduate of an accredited land surveying or engineering curriculum.** This regulation is being modified to sunset the provision that allows licensure as a land surveyor through experience alone. After June 30, 2009, to become licensed as a land surveyor, an applicant must have completed an approved educational program in addition to the required experience.

**K.A.R. 66-10-12. Surveying experience of a character satisfactory to the board.** With the revision of K.A.R. 66-10-11, the language of K.A.R. 66-10-12(b)(4) becomes unnecessary.

**K.A.R. 66-10-13. Geology experience of a character that is satisfactory to the board.** This regulation is being modified to set a time limit when references from geolo-

gists must only be from licensed technical professionals rather than members of geology associations and societies.

**K.A.R. 66-14-10: Reciprocity (for continuing education).** This regulation is being modified to allow more flexibility in meeting continuing education requirements by those licensees who are nonresidents of Kansas.

There is no anticipated economic impact on the Board of Technical Professions or other governmental agencies. The proposed regulations are not mandated by federal law as a requirement for participating in or implementing a federally subsidized or assisted program. There will be no one bearing the cost or being affected by proposed regulations K.A.R. 66-6-4, 66-10-1, 66-10-13, 66-10-12 and 66-14-10. For K.A.R. 66-10-4, there will be some fiscal impact for the individual who will have to incur the cost to maintain a CLARB record of experience. The change in K.A.R. 66-10-11 requires land surveying applicants to obtain formal education. Those individuals currently in the process of gaining experience will be able to meet experience requirements to become licensed by June 30, 2009. For anyone new entering the field, there will be the expense to meet the new educational requirements.

There are no less costly or less intrusive methods that were considered for achieving the stated purpose of the regulations, and there were no methods rejected in favor of the proposed regulations.
